SUBJECT: **EPC MITIGATION PROJECT #1017/ MOSAIC GYPSUM STACK
EXPANSION AND ARCHIE CREEK RELOCATION WETLAND
MITIGATION / CERTIFICATE OF COMPLETION / STR 13-30-19**

Dear Mr. Robertson:

EPC staff conducted a compliance inspection of the subject wetland mitigation areas on December 11, 2013, and has subsequently reviewed all files for the subject wetland mitigation project. It has been determined that the mitigation actions have been satisfactorily completed for the supplemental tree plantings located along the banks of the relocated Archie Creek as well as the Southwest Wedge Wetland Area. Therefore, EPC is closing its mitigation compliance file for this entire project site. Maintenance and monitoring will no longer be required for this mitigation site.

Thank you for your continued cooperation. Please contact me if you have any questions or require further information at (818) 627-2600 X 1345 or via email: battyr@epchc.org.

Sincerely,

Richard C. Batty
Environmental Scientist
Wetlands Management Division
